- 10 Needles
- Easy threading with unique Flexible Threading System
- Easy embroidery positioning with camera sensor system
- Extra large 360 x 200mm embroidery area
- Extra wide Cap
- LED thread guide
- Link multiple machines via a single PC

Smart, compact 10 needle embroidery machine

The PR-1000 is the ideal machine to take your home/business embroidery to the next level. It incorporates many new features which work together to enhance your productivity. It offers 10 needles for a wider range of colours, an extra large embroidery area, with easy to use embroidery positioning camera sensor, and a powerful, yet effortlessly simple, touch screen control system with built-in editing and design preview functions.

Camera positioning sensor

The built-in camera sensor makes it easy to position the embroidery exactly where needed.

28 built in fonts and 110 designs

A wide range of built-in lettering styles and embroidery designs.

Large embroidery area 360mm x 200mm

The PR-1000's extra large embroidery area and range of included frames gives you the flexibility to work with a huge range of projects from Jackets and T-Shirts to socks and baby clothes.

Flexible Threading System

Easy threading prevents thread tangles and knots and provides stable thread tension.

Thread stand with LED guide lights

Multi-colour LED lights help to: Show the position of broken threads, Show the position when a thread needs changing, and Show the position thread for each colour used.

10 Needles

Embroider multi-colour designs quickly and easily. Upper and lower thread trimmers eliminates time consuming trimming when the embroidery is complete.

Hi Definition screen touch screen control

The wide angle HD touch screen displays bright crystal clear images. Super fast processing means design edits and previews are shown immediately saving you time.

Link up to 4 machines via a single PC

With the new PED-Next software, it's possible to link up to 4 machines via a single PC to give enhanced productivity.

Link capability

Send designs to multiple machines. Queue name changes with the new name drop feature. Ideal when making personalized items such as team shirts.

Table to support extra large projects

Includes a table to support large and heavy projects, such as blankets and jackets etc. Also supports the optional jumbo and border frames.

Adjustable LED lighting system

The built-in LED natural lighting system provides effective, adjustable light for the work area.

Cylinder arm

The cylinder arm makes it easy to embroider caps, tote bags, sleeves, trousers etc.

Embroidery frames

4 different size frames are supplied as standard:

- Extra large 360 x 200 mm
- Large 180 x 130 mm
- Medium 100 x 100 mm
- Small 60 x 40 mm

Automatic needle threading

Simply press the automatic needle threading button and the upper thread will pass through the needle. It couldn't be simpler.

Customise designs on screen

Powerful editing functions include arranging text, pattern rotation in 1 degree increments, design size change and the ability to combine designs and add lettering too.

Thread change

The PR-1000 will display the length of time before the next thread change is needed.

Variable speed 400 to 1000 stitches per minute

Select the best embroidery speed for your project, or individual needles can be set at different speeds to suit specialist threads.

Advanced features for extra versatility

+/- 1000 stitch step back / forward using the camera sensor allows you to go back over part of a design.

Dual mode colour sequence for DST/PES

The PR-1000 supports the dual colour sequence function found on many industrial machines.

Applique Function

Create appliques with this useful built in function, perfect for badges and medallions.

Single colour embroidery

Converts multi-coloured designs to single colour, quickly and simply, saving you time.

Brother's versatile PR series of embroidery machines are the market's leading solution for small and home businesses that seek a reliable and easy to use solution for their embroidery needs.

The compact design is ideal for the home or workshop, and is portable enough to be easily moved for use at events and exhibitions. A wide variety of accessories gives the flexibility to embroider a huge range of items, from home wear to sports clothing and high-end fashion garments.

OPTIONAL ACCESSORIES*

Wide angle Cap Frame 360mm x60mm

The wide angle cap frame enables you to embroider popular cap styles quickly and easily.

Cylinder Frame

Embroider virtually anything that's cylindrical and normally difficult to sew. Cylinder frame 90mm wide x 80mm high.

Jumbo Frame 360 x 360 mm

Embroider extra large designs with ease. Simply embroider the first half of the design and turn the hoop 180 degrees. The camera sensor system will position the frame ready to embroider the 2nd half of the design.

Border Frame 300 mm x 100 mm

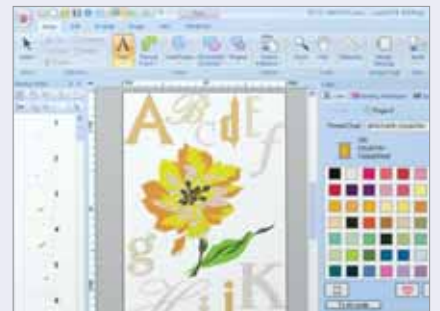

Embroider beautiful continuous designs and borders. Ideal for a wide range of projects from fashion to furnishings.

Round Frame Kit

The round frame kit includes 3 round frames

- Small 100 mm
- Medium 130 mm
- Large 160 mm

Brother's PE-DESIGN NEXT

Brother's latest generation of embroidery design software offers advanced features to enhance productivity on the PR-1000.
